COVID-19 Hand Sanitiser Kiosk

Visitor Management Kiosk

The Hand Sanitation Kiosk helps you create a safe working environment and comply with CoVID-19 obligations through the touchless dispensing of sanitiser. You also have the opportunity to have welcome, safety or promotional messages on the screen.

Visitor Manager by Engagis is a simple, secure system that streamlines the check in of visitors, staff, contractors and couriers, while providing real-time waiting information. Visitor Manager offers a complete process to facilitate the guest's or employee's journey. The journey starts with their email invitation, followed by the check-in at the visitor kiosk, all the way to the check-out process when they depart.

- This kiosk enables you to display a range of content through the Content Management System, customised to your communication objectives

- Communication is impactful as it target individuals as they are checking in

- Create a frictionless process for managing visitors, to expedite the check-in process
- Provide an improved customer experience while increasing compliance
- Keep customers informed through the process through the use of auto-notifications

Smart Booking System

Occupancy Sensor

Smart Space booking helps you get maximum value from flexible working arrangements or activity based working. Staff can check into a desk or work area, at a kiosk, and take the booking with them using a QR code on their phone. For health and compliance, people spacing or 'social distancing' can be managed through the application.
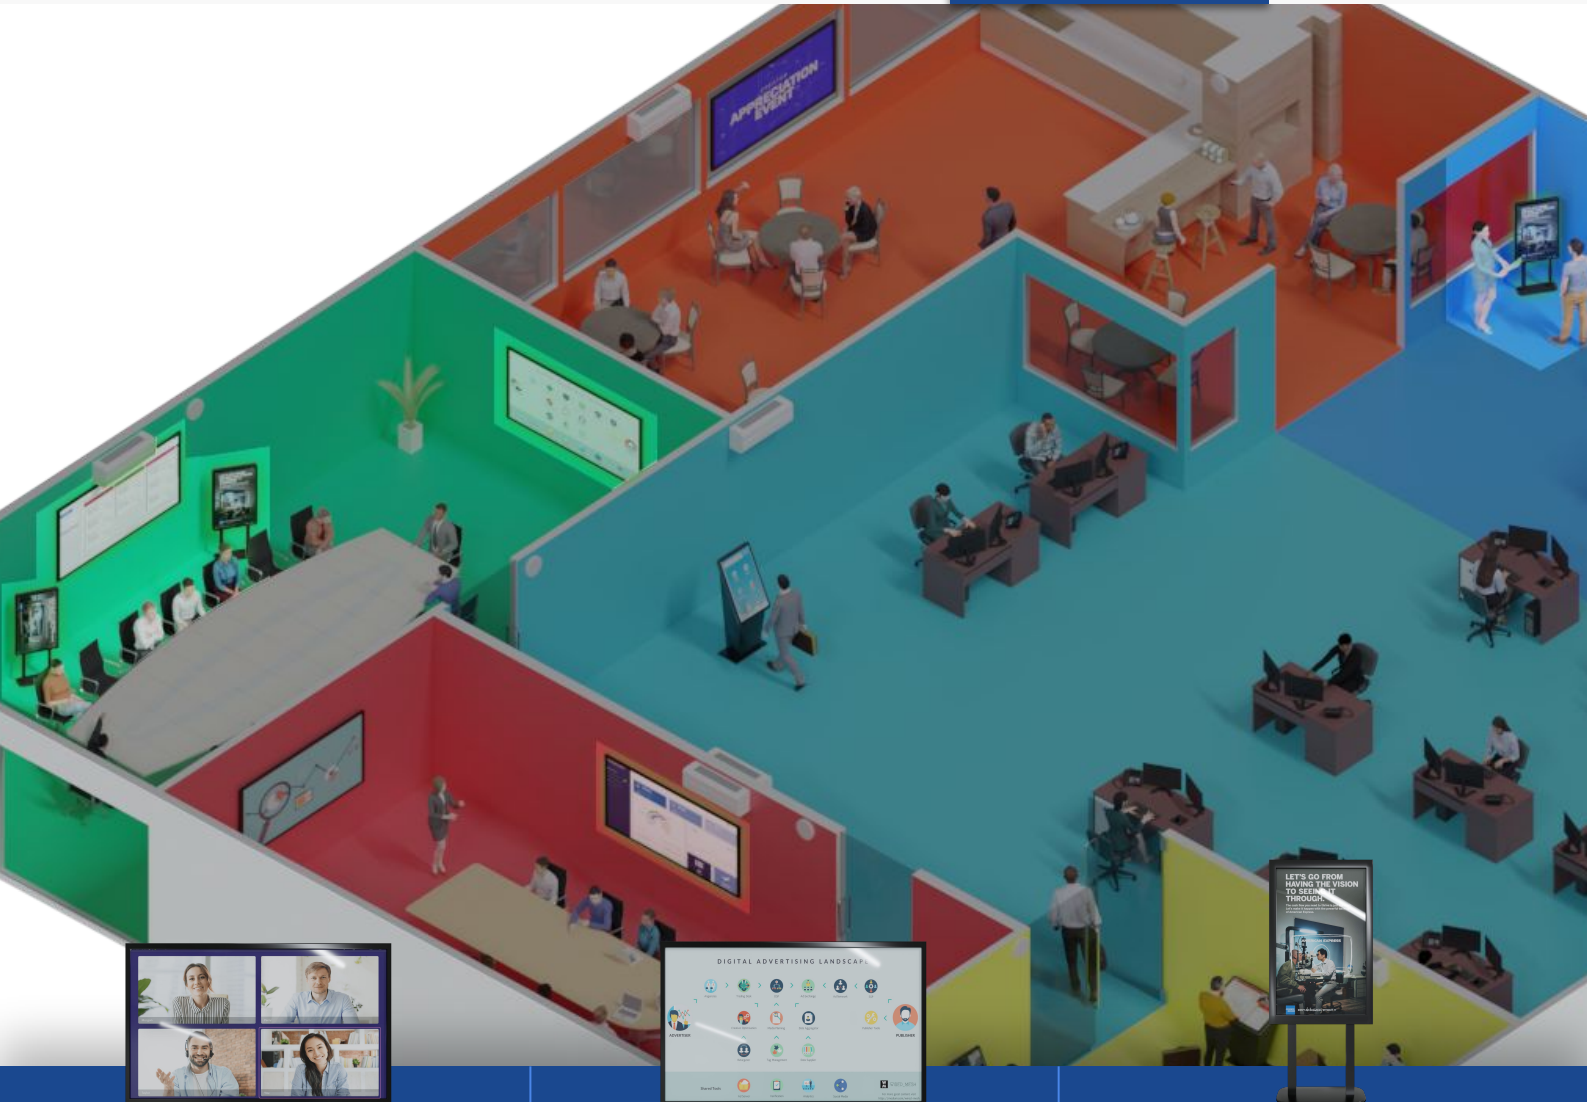

Intelligent image-based sensors that provides smart space usage such as desk and meeting room occupancy monitors the entry and exit of people in building facilities, foyers and etc.

- Convenient way to manage the allocation of work spaces and collaboration spaces

- Simple interactive kiosk check in

- Network deployment of either Power over Ethernet or Wifi

- Optimise space utilisation and generate powerful analytics

- Up to 10 Counting/Presence areas per sensor

Video Conferencing

Simple one touch solutions supporting your chosen collaboration platform (eg, Teams, WebEx, Google) to simplify the way you run meetings across multiple sites and with staff working from home.

- Simple pay as you go model including support
- Leverage your current investment
- Flexible, interoperable solution for new deployments and new sites

Presentation Solutions

One touch control, powered by Creston, that allows anybody in a conference room, huddle room or classroom to easily present on an external screen to the group.

- Fully wireless solution
- High quality audio and video

Smart Standups

The ideal solution for impromptu meetings around an interactive kiosk that provides access to the business intelligence (BI) platform or a smart whiteboard.

- Faster decision making
- Capture and analyse discussions
- Screencast content

Digital Signage
Content Services *(Storya & EzeImpress)*

Digital Signage

Content Services

Staff communications using digital signage delivers impactful messaging on screens, LED displays, kiosks and video walls in the common area of your office where people work or congregate.

Key to the success of digital signage is the content - and how it is created, curated, approved and distributed. Using the EzeImpress content management system (CMS) and Storya which automates content creation using approved templates, Engagis can simplify your content delivery process so you get the best value from your digital signage network.

- Rich visual content including images, video and animation

- Effective communication across multiple sites

- Cuts through where email fails

- Content strategy and content creation services including graphics, videos, 3D models, video animations and interactive html applications

- Content can be updated quickly and be customised for time of day or location

- Self service or managed options available

engagis

Cloud-based CMS

Eze Impress by Engagis, is a cloud-based CMS that is intuitive and powerful. It is a content management system for digital Signage that delivers impactful, content directly to your audience, whether they are in Australia, New Zealand, Asia Pacific (APAC) or global. Engagis is experienced in managing large scale digital media networks.

Eze Impress is a cloud-based content management system (CMS) which means you don't need to worry about managing the platform or making updates and you can access it from any Internet-connected device or you can leave the media management to Engagis.

Eze Impress works in conjunction with the media player software, which sits on a local device and delivers the content to your screens in the correct format, whether it's portrait or landscape, a video wall or a single screen.

Features and Benefits:

- Drag & Drop Asset Management
- Playlist Management
- Scheduling
- Content Approval
- Real-time Connectivity
- Localised Content

engagis

Visitor, Room & Space Analytics

A network of smart occupancy sensors, can provide valuable data and insights to a live dashboard, or generate reports, to optimise real estate planning, room utilisation and health management through the spacing of staff. The smart sensors can be fully integrated into the EzeImpress CMS platform.

The entry and exit of people into the building, foyer, meeting rooms and bathrooms can be monitored for security, people counting and cleaning.

Features and Benefits:

- Real time Occupancy & Analytics.
- Last/Next Cleaning schedule.
- Weather feed.
- QR code for customers to report issues / request cleaning etc.
- Promotional section for optional messaging for Covid, Health and Safety, Marketing etc.
- Ability to customize UX.

Home Office Integration

Home Offices

The way we work is changing. The modern workplace now encompasses the traditional office, the home office and 'in transit'. The key to productivity and a sense of belonging is a collaboration and communication platform that provides a high quality and seamless experience across all work places. And it needs to be easy to use.

Engagis *office solutions* integrate with *work from home solutions* which offers staff maximum flexibility.

Engagis solutions also work seamlessly across your various offices or sites and are vendor agnostic which means you can leverage your existing hardware investment.

Features and Benefits:

Maximise flexibility

Improved staff engagement and culture

Seamless experience between office and home

Optimise real estate utilisation
